Applicant(s)

MARRA, JOHANNES

Examiner

Thomas M. Sember

Art Unit

2885

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 April 2008.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings were received on 04/24/08. These drawings are approved.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Egawa et al '977 in view of Sasagawa et al '283. Egawa et al '977 discloses the claimed invention except for the teaching of the reflective grooves having a reflective powder and the grooves having a lower density pattern and a higher density pattern in certain locations, thereby reflecting more than 80% of the total incident light impinging on the entire light-transmitting plate and the grooves being configured in a matrix. Sasagawa et al '283 (column 4, lines 60+) teaches that grooves include reflective (diffusive) film or powder, because powder is synonymous with film. It would have been obvious to one skilled in the art at the time the invention was made to modify the grooves 17 of Egawa et al '977 to include the reflective film or powder of Sasagawa et al '283 in order to efficiently reflect light. It would have been an obvious engineering design choice at the time the invention was made to configure the grooves as a matrix since such modifications do not result in any unexpected results and are well known modifications for reflecting grooves in the light guide field.

Allowable Subject Matter

3. Claims 1-3, 5-6, 8, 10-16 and 19-20 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 18 have been considered but are moot in view of the new ground(s) of rejection.
